Prof. Leroy Gardner

Editor-in-Chief, Structures
Institute for Civil and Environmental Engineering
Imperial College London
London, United Kingdom

Date: November 18, 2024

Manuscript #: STRUCTURES-D-24-04833R1

Title: Synergistic Effects of Recycled Concrete Powder, GGBFS, and Basalt Fibers on Mechanical and Durability Performance of Recycled Aggregate Concrete.

Authors: Alaa Taha, and Wael Alnahhal.

Dear Prof. Gardner,

We appreciate your consideration for the revision of our manuscript. In line with your suggestion, we have prepared and submitted a revised version of the manuscript for consideration in the ***Journal of Structures***. Additionally, we have provided a separate document addressing all the reviewers' comments point-by-point.

We sincerely appreciate your thorough evaluation and look forward to your feedback in due course.

Sincerely,

Wael I. Alnahhal
